To whom it may concern:

Arpac Storage Systems has been using the Prevue Assessment software for more than four years. We started with the booklets and migrated to the internet access.

The Prevue Assessments have become a mandatory component in our recruitment process. Our various departmental managers use this tool to better frame their follow up interview as well as to confirm their impressions.

We would recommend this software for its ease of use and detailed reporting.

Sincerely,

**ARPAC STORAGE SYSTEMS CORPORATION**

Jim Knechtel
